

Our (Award-Winning) Work is Your Care

Marion General Hospital is honored to be a Thomson 100 Top Hospitals®: Performance Improvement Leader (2006) ... again.

At Marion General Hospital we continually strive to improve health care services for Marion County and North Central Ohio. And, once again, we have earned national recognition for our outstanding performance by being selected as a Thomson 100 Top Hospitals®: Performance Improvement Leader.

For the second consecutive year, the Thomson 100 Top Hospitals® studies found that Marion General is among those hospitals with the highest rates of improved patient outcomes and financial performance over a five-year period (2000-2004 and 2001-2005).

These also are qualities that have contributed to our hospital receiving the OhioHealth President's Award for fiscal years 2004 and 2006.

Our thanks and appreciation go to our award-winning leadership team, staff, physicians, volunteers and board of directors for helping us live up to our goal of "Becoming One of America's Best Hospitals."
